

Regional Service Co-ordinators

Our Service Co-ordinators distinguish themselves by providing a value-added component to support service delivery. They are available for ongoing consultation to the client, family and treatment team and possess a diverse base of experience in both public and private sectors.

Co-ordinators are:

- Located province wide
- Knowledgeable and experienced in assisting in the design of appropriate client-centered goals
- Highly skilled supervisors
- Actively involved in ABI community associations, networks and fundraisers
- Able to identify appropriate community resources

AVAILABILITY

Bartimaeus Service Co-ordinators are available at all times to discuss your unique situation.

SINCE 1988

Bartimaeus has been providing quality care, support and treatment services for many years.

Rehabilitation Services can be combined with other services offered by Bartimaeus to ensure continuity of service for vulnerable children, adolescents and adults with special needs.

BARTIMAEUS LEADERS IN REHABILITATION SERVICES

Bartimaeus provides the highest standards of care to persons who have experienced the effects of a traumatic brain injury, spinal cord injury or other serious trauma.

We are Leaders

Our Rehabilitation Support Workers:

- Have a minimum of five years of experience
- Hold certification in home and community-based rehabilitation
- Possess a relevant university degree or diploma
- Participate in ongoing supervision and in-service training under the direction of our Service Co-ordinators
- Maintain up-to-date criminal reference checks including vulnerable sector screening
- Are covered by professional liability insurance
- Provide client support in a variety of languages

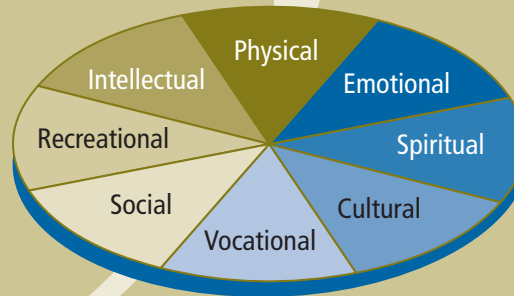

Our Rehabilitation Support Workers provide service in a variety of settings:

- Home
- Work
- School
- Supported living environments
- Long-term and complex continuing care

WE ARE UNIQUE

Bartimaeus values client-centred service delivery:

- We conduct a comprehensive matching process that promotes client choice.
- We encourage clients to interview and select the Rehabilitation Support Worker whom they feel would best suit their individual needs.
- We execute recommendations of the multi-disciplinary team through our **whole client approach**.

- We provide reliable and relevant communication to the treatment team in addition to standardized progress reports.
- We maintain ongoing supervision and quality control through our regional Service Co-ordinators to ensure the highest standards of client care.

Consultation, Education, and Training

Consultation services, educational workshops and seminars are available to family members and professionals who live and work with individuals who have an acquired brain injury.

Post-Settlement Support

We provide cost-effective rehabilitation solutions to clients and their families during the post-settlement period. Support details are reviewed according to the specifics of each unique case.
