** I want to age in my own home. **

Home care is the delivery of health and social services to individuals living in the community. It is one of the fastest-growing segments of the Canadian healthcare system because it is the most popular form of care for aging Canadians. But...

Home care demand is exceeding supply.

If you are a family member, caregiver, healthcare professional or a concerned adult child of aging parents, come and learn about:

- The realities of home care today
- What the government does and does not provide
- What steps you can and need to take to ensure your loved ones receive the care you need and deserve

Karen Henderson is the founder of the Long Term Care Planning Network, Canada's leading resource and education centre for aging and eldercare.

Keynote Introduction by Mr. Rick Burgess, lawyer and community volunteer. Richard is the current chair of the Burlington Community Foundation, Vice Chair of the Halton Police Services Board and President of Performing Arts Burlington.

HOME CARE OPTIONS IS A GROUP OF PROFESSIONAL INDEPENDENT SENIOR CARE ORGANIZATIONS COMMITTED TO PROVIDING INFORMATION AND EDUCATION TO THE HALTON COMMUNITY AND THOSE WE SERVE.
