

Child & Adolescent Services

Support for children and adolescents exhibiting moderate to severe behaviour

Specialized support for children and adolescents who are exhibiting challenging behaviour or evolving mental health difficulties. Services include:

- Support for parents
- Developing routines and limits
- Respite for parents and guardians
- Behaviour programming for high-needs children and adolescents

We also work with families whose children and adolescents might be involved with the youth justice system.

Services are offered in the family home, school, hospital, or anywhere in the community.

Parent Help, a counselling service for parents to discuss and plan ways to respond to their children who are posing challenges in home, school, or in the community.

Transitional Age Services, for youth up to age 25. Support services for students transitioning to college or university who are experiencing anxiety, depression or other mental health difficulties as they prepare for and start post-secondary education.

All service is provided on a fee-for-service basis.

Bartimaeus Behaviour Specialists

- Hold a university degree or college diploma
- Have a minimum of five years experience in the social services field
- Have excellent interpersonal skills
- Have current First Aid and CPR training
- Are covered by professional liability insurance
- Have the ongoing supervision of the Director/Coordinator of Services
- Have undergone vulnerable sector and criminal background checks

We match our Behaviour Specialists' knowledge, abilities and expertise with each individual's needs. We believe that a positive fit between the individual and our Behaviour Specialist is vital for service effectiveness.
