

# Special Videoconference Support Service for Parents

In light of COVID-19 and the need for social distancing and isolation, Bartimaeus is offering Parent Help via videoconferencing to support families during this time.

**Parent Help** offers support to parents or caregivers with strategies to assist them in meeting the needs of their children focusing on the present, the challenges, and the possible solutions. It is a consultative and coordinated model that is short-term, from 1–5 meetings, as needed. The practitioners are highly experienced working in many different child and adult mental health facilities and developmental services.

We have expertise in providing strategies in relation to the following:

- Specialized behavioral support
- Child and adult mental health
- Autism and neurodiversity
- Divorce and separations
- Crisis prevention and response
- Navigating school supports and learning

## For more information

Please contact Mardi Ennis-Gregory, Family Service Coordinator  
[mardi@bartimaeus.com](mailto:mardi@bartimaeus.com)

Service is offered at a reduced rate of \$80 per hour.
