

Bartimaeus Behaviour Specialists

- Hold a university degree or college diploma
- Have a minimum of five years experience in the social services field
- Have excellent interpersonal skills
- Have current First Aid and CPR training
- Have undergone vulnerable sector and criminal background checks
- Are covered by professional liability insurance
- Have the ongoing support and consultation of the Director/ Coordinator of Services

We match our Behaviour Specialists' knowledge, abilities and expertise with each individual's needs. We believe that a positive fit between the individual and our Behaviour Specialist is vital for service effectiveness. We work collaboratively with community partners, follow direction set by the interdisciplinary team, and offer support and consultation on an as-needed basis.

Accessing Service

Our services are available to agencies and their programs when needed, where needed, for as long as needed. Bartimaeus Service Coordinators respond to requests that we receive either by phone, email or through our website.

Coordinators are central to the process as they listen to the request, determine whether our services are appropriate, make a plan that includes choosing a Behaviour Specialist who is able to meet the specific service needs, and conduct regular check-ins and reviews.
